

# Apple Class

## Autumn Termly

### Overview

#### English: Sensory Story

This term our Sensory Story is titled 'My Senses' the children will be listening and participating in a variety of sensory experiences that help them to explore their own senses and how to use them.

The children will be working on personalised and individual targets linking to their current level.

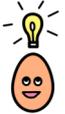

Through the session the children will be encouraged to use their pupil voice and build upon their communication skills to express preferences and communicate their likes and dislikes.

Early mark making skills and book skills will also be encouraged throughout the session.

The theme in Apple Class this term is 'Our World' we will think about the children's world and how we can help them to explore it, as well as the wider world around them.

We are going to continue to work closely with therapy and support their approaches through everything we do.

#### Maths: Cognition

Within our cognition sessions we will be travelling around the world and learning about a variety of different countries. We will experience food, drink, music and movement linked to a country as well as creating crafts and art work too.

The children will be working on personalised and individual targets linking to their current level.

#### Topic- How do I use my senses to explore the world around us?

We are going to continue thinking about our senses and how we can develop our use and knowledge of our senses in our Topic sessions, we will spend 2 weeks focusing on each of our senses to allow every child plenty of time to explore and embed their learning.

We will explore a variety of sensory (and messy!) activities linked to each of the senses.

#### Dates for your diary

**3rd September**— Back to school

**7th September** – School council election.

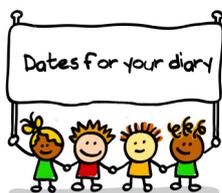

**12th October**— Fiction week

**15th October**— Flu Vaccinations

**22nd October**—School closes for half term

**3rd November**— School opens
