- Lots of creative activities

Autumn 2020

This Term Holly's focus will be on the Autumn season. We will be looking at the changes in the weather, nature, different colours, smells, and the foods that Autumn brings to us. We will also be learning about ourselves and our family. Our Maths and Literacy will have an Autumn theme and our sensory story sessions will be based on the book, The Tiny Seed. During this term we will visit our homes and explore our local area looking at the changes that autumn brings. We will collect autumnal objects to create different creative pieces.
