

Lisburne School Offer

1. Who can access Lisburne School?

Lisburne School is a special school and is maintained by Stockport Metropolitan Borough Council. It caters for primary aged pupils who have learning difficulties. Many pupils have complex needs including autism, communication, physical and medical needs.

2. How does my child access this provision?

Admissions to Lisburne School for pupils with Special Educational needs are made by the Local Authority. Pupils all have an Education, Health and Care Plan.

3. What is the provision?

There are 15 classes in total across 3 sites.

Hollywood Site

We currently have 1 class of 26 children in our EYFS and Year 1 'Holly Class' provision at Hollywood Park.

Offerton Site

We currently have 91 children in 11 classes with between 5 and 13 children in each class. Ranging from year 1 to Year 6.

Overdale Site

We currently have 48 children in 4 classes ranging from EYFS to Year 3. EYFS has 22 children accessing continuous provision and 3 classes with 8 or 9 children.

We have one class on the main site which follows a sensory curriculum for our PMLD learners.

We have specific groups in small class sizes which have a focus on therapeutic/communication input.

Children take their own unique journey through Lisburne School and may stay in a class for more than one year. Each child moves to an appropriate class

considering their holistic needs including their age, communication and therapeutic requirements and their cognitive ability.

Classes are paired with a buddy class which meet half termly for social interaction activities.

The children in our classes work at varying levels across our school curriculum from pre-key stage standards to up to lower KS2 yearly expectations.

4. What are the benefits of attending Lisburne School?

Children are placed in small class sizes with a high staff: pupil ratio. Staff are highly skilled and knowledgeable, developing expertise closely linked to the needs of the children in their classes.

The school works in a collaborative, multi-disciplinary way, working closely with partners from a range of different agencies and therapy services to deliver programmes to meet each individual child's holistic needs.

Our highly experienced staff have delivered training to other practitioners across the authority.

Our curriculum has been developed to ensure a breadth of coverage with a focus on what is important to our children and families. We plan to provide our children with a wide range of educational experiences, along with a focus on communication and independence. We carefully plan lessons and sessions to meet individual needs whilst providing academic challenge in order to support our children to meet their full potential.

Lisburne School provides after school clubs to promote social skills and independence. We currently offer a football club and a fun club.

In all of the school holidays (except for Christmas and May half term) we provide a play scheme for several days of the week. It is run by Lisburne staff who know the children well. It is very well attended and always in high demand.

Lisburne has been rated Outstanding by Ofsted in November 2016.

5. Does the school have any special facilities/ resources?

The school is fully accessible to all users. There is overhead tracking in some classes.

The Hollywood site has a soft play area, a kitchen area, a light room and other specially designated classroom and work areas.

The Offerton site has a soft play area which can be used to develop gross motor skills and to work on OT, physio and SALT programmes. We also have a sensory light room. We have a forest school facility and classes are equipped with full waterproofs, there is a bespoke learning area to be used in conjunction with the outdoor forest school area which we share with Dial Park the main stream school who we currently share a campus with.

The Overdale site has a soft play area, a light room, a forest school area and other environments which are carefully designed to meet the children's needs.

The school has 2 minibuses (including one with wheelchair access) which we are able to use to access activities and life skills programmes in the community as well as trips further afield to enrich the curriculum.

Classrooms are carefully adapted to meet the needs of the children including low distraction work areas.

Classes have access to outdoor learning areas including the sensory garden which includes planted and seated areas for the children to explore and spend quiet time.

In the playgrounds there are a number of fixed pieces of play equipment, including a climbing frame and an adapted swing.

The school site is secure with coded entry and exit doors and other appropriate security features throughout the building.

6. What specialist services are there in school?

There is an extensive multi-disciplinary team working on site. This includes physiotherapists, Occupational Therapists and Speech and Language Therapists. The school has an allocated school nurse 3 days a week.

Peripatetic teachers visit the school on a weekly basis to work with specific groups of children, including a music teacher, a dance teacher. Qualified teachers from the multi-sensory impairment team from Stockport's Sensory Support Service work with identified children.

The school hosts a number of clinics; there is a regular paediatric clinic, continence clinic and we are in regular contact with other health professionals, such as the dentist and optometrist.

We have four Family Liaison Coordinators, who work closely supporting our parents and carers, run relevant workshops and training events.

Dinners are cooked by our school kitchen staff and cater for all specialist diets.

The school has good links with the travel coordination team and provides training for drivers and personal travel assistants.

The school has four team Teach tutors to provide training around behaviour support.

School has a teacher trained as a forest school lead practitioner.

7. Are there links with other schools?

We share a campus with Dial Park, a main stream school. We work together on a number of initiatives including inclusion opportunities in both directions. We identify pupils for whom a mainstream primary link would be beneficial and arrange inclusion within an appropriate cohort.

A number of students from secondary schools, colleges and universities come to Lisburne for work experience and placements.

8. How will I know that my child is making progress?

Teachers will inform parents of children's progress in a number of ways throughout the school year.

Each child has an Individual Education Plan (IEP). These are written and reviewed three times a year, and the targets are evaluated to monitor progress.

Each child's education, health and care plan is reviewed annually. This is a meeting in which parents, school, the LA and other agencies can review the child's needs and progress and the provision needed to meet their requirements. Teachers and therapists write a full report and parents are asked to contribute their own thoughts.

Two parents meetings are held in the autumn term and the summer term to discuss individual children's progress with the class teacher. Therapists and other agencies are often available to meet on these evenings.

Each child has a written report at the end of each academic year. Children's levels are also shared at the end of Y2 and Y6.

On a day to day basis teachers communicate with parents through Class Dojo or Tapestry. Key children may have a home school diary relating to a specific health or medical need.

9. How is my child's progress monitored and recorded?

Children's progress is monitored and shared with parents as above. Each pupil's progress is monitored using the school's assessment procedures. The Senior Leadership team meet with class teachers to discuss the progress of individual children and of class cohorts.

Each child has a 'Moderation' folder in which a key piece of work is collected and levelled each month.

Summative data on children's progress is collected in January and June. New targets are set in September of each academic year.

The school have developed a new tracking system known as 'Life after P-levels' which identifies key attainments in order to be able to track individual progress across areas of the curriculum. Progress is recorded securely in an online tool, 'Classroom Monitor'.

Some of our children are working within the engagement stages of the pre-National Curriculum. This is a specialised sensory and experiential curriculum which is continually monitored and assessed using the 'Tapestry Branches' assessment tool.

Teachers meet regularly to moderate work and assessments to ensure that assessment decisions are consistent and robust. The school also attends cluster meetings to ensure that our decisions are in line with other schools around the authority.

10. How will the curriculum be matched to my child's needs?

The curriculum at Lisburne is planned with the needs of the individual child central to all we do. Each child at Lisburne has an Individual Education Plan which has a series of targets linked to the school focuses and also the individual child's therapy and independence needs.

Learning activities are planned to give a broad coverage and to meet individual learning styles.

Each child has a personalised 'Lisburne School Offer' which identifies the support they will have access to at Lisburne.

11. What are the special approaches/ strategies the school uses?

The school uses a total communication approach which includes Makaton signing, Intensive Interaction, PECS, Objects of Reference and AAC. In addition, we use a number of specialist teaching approaches and interventions to maximise children's access to the curriculum. Including multi-sensory teaching, TEACCH, SERI, Motor Skills United, Sign and Shine, movement breaks, and the use of low distraction environments.

12. How do you support my child in transition arrangements?

We are an open school and welcome visits to the school, supported by other agencies as appropriate. New parents to the school are invited to attend a meeting in the summer term, where they get to meet staff, other new parents, our Family Liaison team and have the opportunity to purchase uniform. The Family Liaison team and staff also conduct home visits and visits to the nursery to observe the child in their current setting. Children are then invited to attend pre-admission visits where they get to spend time with the staff and children who will be in their class. Transition passports, including pictures of the classroom, staff and classmates, are created and sent home to support families talk about the transition arrangements at home. In Holly and Lime classes (our EYFS children) have a two week staggered start to the school year.

Families of children who start at Lisburne at times other than in reception will have a bespoke transition programme created in liaison with the family and the current school. Again, the Family Liaison Team and teaching staff will complete home visits and visits to the current school.

Transitions between classes are supported by meetings between class teachers, planned movement of familiar TAs into new classes and planned visits to the new classrooms to spend time with the new cohort of children and staff. Again transition booklets are created to support the passing on of new information and children will receive a class visual with pictures of their new staff team and classmates. The Family liaison team will also work with teams to ensure any relevant information is shared to support the transition within school.

Transitions on to other schools are supported by the FLC's and class teachers. Children spend time in the new school as appropriate. Teachers from the receiving school are invited to come and visit the children in Lisburne and to meet current staff to share key information. Again transition booklets are made to be sent home to support the child and family with the transition.

13. How does the school help me to support my child's learning?

We are committed to engaging parents in their children's education.

Strong home school links via the school website, Class Dojo and Tapestry help keep parents/ carers informed of what a child is doing in school and how this can be supported at home.

We are an open school and are happy to discuss children's progress at any time. We have regular events where parents are invited into school to join the children in their learning. We also have information evenings and provide a crèche in order that parents can learn more about the ways in which we teach the curriculum and ways in which this can be supported at home.

Classes provide homework activities and reading books as appropriate.

14. How will you keep my child safe?

Safeguarding is central to everything we do at Lisburne School. We have a high staff:child ratio in order to ensure adequate supervision and safety in all activities and areas of the school.

All staff are trained in basic safeguarding, Prevent, child protection, moving and handling, asthma & epilepsy and Team Teach.

All staff and regular visitors to Lisburne are DBS checked, this information is kept within the central record.

We have a large number of staff who have up to date first aid and paediatric first aid training.

Team Teach is Stockport's approved approach to supporting children with challenging behaviour. This includes, as a last resort, physical interventions to keep children safe. Our approach is centred around knowing our children with a focus on de-escalation and calming strategies as well as supporting children to develop their own ability to self-regulate.

Our school environment is secured with fobbed gates and doors as well as internal keypads. Visitors sign in on the electronic screen with printed photo badges to be kept on their person for the duration of their visit.

All off site visits are risk assessed in line with the local authority guidelines.

The school safeguarding policy covers all areas of safeguarding and is reviewed annually. This is available on the school website and is shared with all staff and volunteers.

15. How do you support children with additional medical needs?

We have a school nurse who is available for advice 3 days a week. She attends reviews, TACs and consultations within school, she delivers staff training and updates health care plans as appropriate. The school nurse holds half termly drop in sessions for parents/ carers to come in and discuss any issues their child may have and also supports the paediatric consultant in clinic. Parents are able to contact her directly with concerns and issues.

Children with additional medical needs each have a Health Care Plan compiled by the school nurse and family. These are confidentially shared with staff teams in order to support the child in school and are centrally stored for easy access.

Staff are given training on specific issues as required, for example tube feeding and hoist training.

We have a good ratio of staff who have received first aid training.

All staff receive asthma and epilepsy training on an annual basis.

16. What opportunities are there outside the classroom?

Learning out of school is an important part of our curriculum. We run a parallel curriculum through which we promote enrichment opportunities.

We offer regular off-site PE opportunities; donkeys at EST, rebound therapy at JumpSpace, inclusive cycling at local parks including Wythenshawe and Woodbank Wheelers.

Each year our year 6 children get the opportunity to attend a residential trip to Anglesey or Petty Pool. Children experience a number of adventurous activities which are tailored to meet their needs and simultaneously challenge them.

We have a full forest school programme which runs throughout school and takes place in all weathers!

We also run a full life skills curriculum, this is designed to encourage independence and resilience within the community.

17. How are Governors involved and what are their responsibilities?

At Lisburne School we have a knowledgeable and supportive Governing Body whose members hold a great deal of expertise and knowledge about the school.

Governors have a responsibility to make sure that all school decisions are accountable and made in the best interests of the children and to promote high standards of educational achievement.

The governing body monitors school improvement. All governors share a joint responsibility for Special Educational Needs and Disabilities.

Governors attend regular meetings and receive a full head teachers report each term. They attend LA training on issues such as safeguarding and also attend 'in house' training on initiatives and developments in school. Lisburne also runs regular 'governor days' during which the governors come into school and spend time in classes to increase their understanding of the needs of the children and how they are met.

18. How will my child's voice be heard?

Pupil Voice is a high priority at Lisburne School. Many of our children have communication difficulties and as such staff have received training and are skilled in understanding and reading pupil responses to inform their understanding of pupil voice. Each class has a 4 point scale from physical and verbal responses, using talking mats, through being able to verbalise their feelings. Symbols and visuals are provided throughout the school environment to support children in all of the different contexts. Evidence of pupil voice is collected through daily learning opportunities, creative weeks and other activities.

19. What are the arrangements for if a parent/ carer has a complaint?

All complaints should be discussed with the Head Teacher in the first instance. Where the complaint relates specifically to the actions/ inactions of the Head teacher the complaint should be directed, in the first instance, to the Chair of the Governing Body. Further details can be found in the Complaints Policy, a copy of which can be found on the school website.

20. Who can I contact for further information?

We welcome visits to the school. These can be arranged through the Deputy Head Teacher, Gillian Levis. Please contact the school office on 0161 4835045 or email gillian.levis@lisburneschool.stockport.sch.uk for more information.

Lisburne School is one of a number of special schools in the Stockport Local Authority. Please see the Local Offer for further information.
